traveled internationally?**

Yes

No

Thank you for helping us protect you and others during this time.

`/welcome2.html?facility=N`

## Flowcharts.js:

```

{
  "id": 6,      // this id is used in Facility JSON
  "flow": {    // the 'flow' JSON is used to control what appears
  "start": {   // Name of the State. The FIRST state is ALWAYS 'start'
    "type": "bool_decision",      // bool_decision OR 'statement'
                                   // If type = statement,
                                   // it has only one button 'next'.

    "short": "", // OPTIONAL create a header for question
    "theme": "white-card",      // class from theme.css
    "text": "In the last ...",  // text of the question
    "sms": "In the last ...",   // TODO: OPTIONAL: used with SMS
    "info": "Highly contagious,...", // TODO: OPTIONAL: used with SMS
    "yes": "b10",               // For boolean 'type', Yes Button
    "no"  : "b1"                // For boolean 'type', No Button
                                   // points to this next state
                                   // points to this next state
                                   // If empty, that marks the END
                                   // If "end" is explicitly used,
                                   // as state, then Reset button is
                                   // not shown.
  },
  "b1": {
    "type": "bool_decision",
